Company Since 1919, Halliburton has been opening Worlds of Opportunity around the globe. We're one of the world's largest and most safety-conscious providers of oil field services. Come in and explore your future!

Job Advertisement Text It's more than making a living. It's finding a purpose.

Mechanical aptitude, pressure testing, maintenance of surface and down hole tools and equipment - bring your specialization in these areas to Halliburton, as a Down Hole Mechanical Tech II. In this role, you will perform maintenance and inspect surface equipment, and assemble and disassemble down-hole tools in support of our Sperry Drilling Services division. Basic computer and mathematical skills, reading comprehension and writing abilities are a must.

An Associates degree or similar is required, along with 1 year of experience as a Down Hole Mechanical Tech I or equivalent tool technician training. Electronics and/or mechanical background a plus!

Additional Requirements High School Diploma or GED equivalent required.

Note: Other positions within this job family may be available. Job title will be based on the experience and competencies of the applicant.

Closing Text Halliburton: Worlds of Opportunity for you!
